

Operational Programme	Technical Assistance
Specific objective	no. 1 To ensure the stabilization of the officials of the subjects involved in the management, control and audit system of ESIF
Name of beneficiary	Government Office of the Slovak Republic
Project name	Implementation of the Central Educational Plan for the European Structural and Investment Funds administrative capacities in the year 2017
Project summary	<p>The objective of the project in 2017 is the realization of 20 types of trainings in groups of 20 – 40 trainees focused on the key areas of the implementation based on the ESI Funds Management System. 91 trainings took place throughout this period and 2 759 administrative capacities (standard and non-standard working positions) were trained. These trainings took place at hotel Bôrik and their content was completed with practice in the system ITMS2014+.</p> <p>At the same time, the project created 2 e-learning courses: DV3.1 Introduction to the System of Financial Management and Control and DV4.1 Introduction to the Public Procurement Control, both of them are 8 – 10 hours long. The main objective of these courses is to provide basic knowledge in Financial Management and Control and in Public Procurement and to provide more effective access to a bigger group of administrative capacities in shorter time. Based on these theoretical knowledge trainees have access to other trainings in present form.</p> <p>These courses will be available in upcoming period on the Central Education Plan website https://cpv.vlada.gov.sk/.</p> <p>In order to effectively support the preparation, realization, monitoring and evaluation of the Central Education Plan, the IT platform – IS CPV was completed with further functionalities which allowed to summarize data regarding ESIF administrative capacities, maintain their history and optimize the training workflow.</p> <p>This project follows the previous one: Implementation of the Central Educational Plan for the European Structural and Investment Funds administrative capacities in the year 2016, ITM2014+ code: 301011A936.</p>
